To Whom It May Concern:

I have known and worked with Jennifer Hertzoff since 2014. I have observed and have been involved with her as she taught veterinary dentistry and radiography to many veterinary practice team members. I have found her to be highly knowledgeable and she is especially skilled in teaching.

Jennifer recently taught veterinary dental radiography to our new team members at our new specialty veterinary dental and oral surgical practice. The results were extremely positive! My team members were able to perform wonderfully after just one teaching session.

I give Jennifer the highest recommendation with respect to her teaching skills.

Sincerely,

A handwritten signature in blue ink that reads "Kipp J. Wingo, D.V.M." with a period at the end.

Kipp J. Wingo, DVM
