Curt R. Coffman DVM, Diplomate AVDC

12-10-19

I have worked with Jennifer Hertzoff, CVT for over 15 years in clinical practice in our Arizona offices. Jennifer is an accomplished veterinary technician and has learned and practiced her dentistry skills under the guidance of each of our veterinary dentists. I have also worked with Jennifer in the continuing education setting numerous times over the past years.

I have observed her knowledge clinical dental skills improve to the point where she is now accomplished with dental examination, hygiene and radiography. She takes part in educating our doctors when they begin their clinical residency training, helping them learn the basics of oral examination and dental radiography. Jennifer has also become a confident educator outside of our clinic and has helped staff at many veterinary clinics improve their dental skills.

As a board-certified veterinary dentist, I can attest to the fact that Jennifer Hertzoff, CVT is a subject matter expert.

Sincerely,

Curt R. Coffman DVM, FAVD, DAVDC
