To Whom It May Concern:

Please consider this a strong letter of recommendation for Jennifer Hertzoff, CVT as she will be residing in the NY area.

I have had the pleasure of knowing Jennifer since I moved to Phoenix in May of 2018 to work at Arizona Veterinary Dental Specialists. Jennifer worked at our dental specialty practice for over 15 years prior to focusing on her businesses. For over two years, I have had the unique opportunity to spend lots of quality time with Jennifer at work and see her clinical skills shine. Jennifer is a veteran technician who is efficient, kind and treats the patients with tender loving care. Throughout the past few years, she has grown both her educational consulting business Veterinary Dentistry Training as well as her instrument sharpening business Precision Instrument Sharpening.

Jennifer has been an amazing clinical instructor at various clinics providing engaging in person as well as virtual webinar continuing education. Jennifer has a positive attitude, is always willing to learn new things, and has a true passion for all things veterinary dentistry. Jennifer is a true all-star and would make a great addition to your team via her educational offerings.

Please do not hesitate to contact me at (860) 670-3333 with any questions.

Sincerely,

Lisa Fink, DVM, DAVDC
